  - Context
  - Problems
- 5 minute speedrun feedback any%
- 10 minute session
- 10 minute session
- 10 minute session
- 5 minute speedrun upvote
- Conclusion

Goals

- **Gather ideas** for how to improve the community

- **Gather people** interested in working on these ideas

- **Kickstart** a year-long initiative to improve our community

Context

Ubuntu is
Canonical + **Community**

The best way to make something happen is **to do it**.

Don't worry too much about people blocking action

Context: boards etc.

- Community Council
- Technical board
- Communication Councils: IRC, Matrix, Forum
- Canonical Community Team
- Flavours

Guidelines

- Focus on solutions, not problems

- Try to write solutions as actions

- If we're missing problems, add them to the complaint corner

5 problems

How can we make it easier to **onboard new people** to contributing?

How can we **help existing contributors grow** into leadership positions?

How can we make our community **more diverse and global**?

How can we better **reward, thank, and uplift** contributors?

Interesting thoughts

To be filled in during the workshop

Next Steps

- Send an email to merlijn-sebrechts@ubuntu.com with
  - Matrix username
  - Discourse username
- We'll gather and structure ideas
- We'll post results on Discourse and create a group on Matrix
- Start implementing ideas

Thanks!
